EASY-CUT JAWS™

Made In The U.S.A.

- Quickly and safely cuts away steel, brass and plastic faucet mounting hardware from kitchen, bath, laundry, utility and bar faucets with 1/2" NPT mounting shanks
- Handles the job that the basin wrenches and other tools can not handle - No more frustration from corroded or stripped nuts
- Two different sizes are available - standard size 10.5" length for use on kitchen, lavatory and bar sinks. Also works on removal of kitchen side sprays and many brands of counter mounted soap dispenser. Extended size 15.5" length for use on laundry/utility tubs and extra deep commercial restaurant sink work stations.
- Plated steel driver assembly fits into all 3/8" and larger size drill chucks
- Cutting head is bi-metal with a Rockwell hardness of 60 - will cut through hundreds of faucet nuts
- Clear colored polymer chip guard will collect cutting chips during use -the cutting guard is virtually unbreakable!
