

Brushes For Every Industry

MILL-ROSE

...about The Mill-Rose Company

Mill-Rose corporate headquarters and manufacturing facility in Mentor, Ohio

Clean-Fit Products distribution facility in Mentor, Ohio

The Mill-Rose Company is the largest U.S. manufacturer of twisted-in-wire brushes used in virtually every type of industry throughout the world. Mill-Rose is a family-owned organization, now in its fourth generation, that takes pride in its history of serving satisfied customers. Our company-wide philosophy has always been "The customer is king" and we believe knowledge, integrity and trust are the cornerstone on which solid relationships are built. Mill-Rose knows about solid relationships, having served many of its customers for over 80 years!

Mill-Rose experienced significant growth from its humble beginnings in 1919, and today operates manufacturing and warehouse facilities throughout the United States and Mexico. A 64,000 square foot production facility in Mentor, Ohio and 33,000 square foot production facility in Mexico feature the latest in manufacturing techniques and quality-control programs. Production is complemented by a 70,000 square foot U.S. distribution center with state-of-the-art inventory management and distribution.

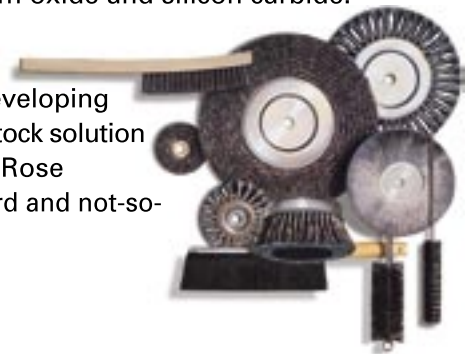

Mill-Rose is uniquely suited to manufacture brushes as tiny as .018" in diameter up to 15" wire wheel brushes using a diverse range of metals and natural or synthetic fibers for bristle material. Production runs vary from high-volume standard or custom orders to small-volume specialty orders.

Styles and types of brushes include, but are not limited to, twisted-in-wire, strip brushes, staple set, end, cup, wheel, drawn and more. Mill-Rose offers a complete range of standard materials (high carbon, stainless steel, brass, bronze, nylon, bristle, etc.), as well as aluminum silicate, and different grits of aluminum oxide and silicon carbide.

Our engineering department is always available to work with customers in developing new brushes. Chances are, we offer a stock solution to your brushing requirements. Mill-Rose manufactures well over 100,000 standard and not-so-standard sizes and shapes of brushes!

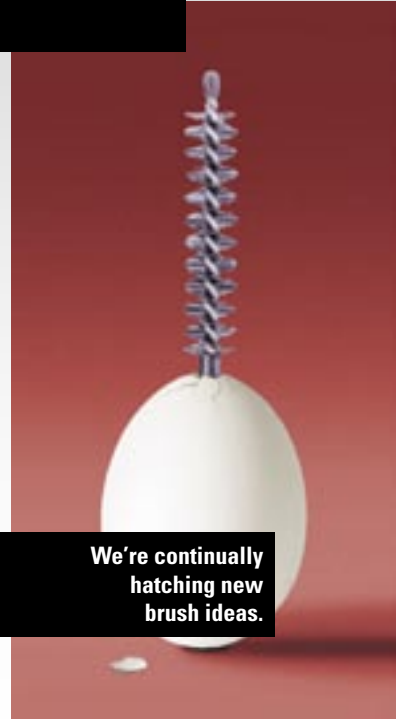

Our engineers help you with size, shape and materials.

IMAGINATIVE

Brush Designs and Applications

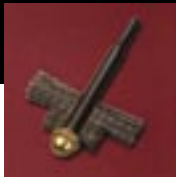

The Mill-Rose Company specializes in designing and manufacturing brushes used in new, unique applications. If you require a special or unique brush, we'll design it for you and make it from any material the job calls for. We're continually hatching new ideas for brushes and have designed thousands of brushes for special applications. Many of these are brushes that don't actually brush, so we call them unBrushes®. UnBrushes® are used in all types of manufacturing where off-the-shelf brushes simply don't work. UnBrushes® solve numerous electrical, mechanical and production problems.

We're continually hatching new brush ideas.

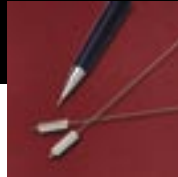

Continuous Applicators

Honing & Deburring

Static Dissipation

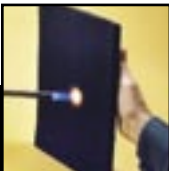

Medical Instruments

Mixing & Screening

...about Clean-Fit Products

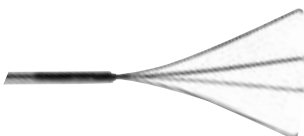

Strong demand for Mill-Rose brushes by the plumbing, heating and cooling industry led to the formation of Clean-Fit Products, a fast growing division serving professional contractors, hardware wholesalers and Do-It-Yourself home centers. While Clean-Fit Products' principle product line is brushes, the division offers thousands of complementary products including abrasives, PTFE sealants and specialty tools.
